

# Edible Fire

---

If you can make this correctly & have it checked off by a leader, you can EAT IT!

Follow the ingredients & method carefully to make sure it is made correctly.

## **Ingredients: -**

- Serviette – represents clearing around the fire
- M & M's – represents safety circle around fire
- Paper Cup – place safety water (fire fighting water)
- Shredded Coconut – represents kindling
- French Fries – represents small sticks
- Twisties – represents large logs

## **Optional: -**

Icing Sugar Mix to hold ingredients together

## **Method: -**

1. Unfold serviette & lay it out smooth to represent the clearing that has to be done in an area to make it safe to build a fire.
2. Make a fire ring from M & M's.
3. Make 3 piles of firewood: coconut for kindling, french fries for wood & twisties for logs – need to make sure the wood pile is graded correctly.
4. Before you lay the fire you need a cup of water to represent the fire fighting equipment that should be on hand.
5. Now you are ready to lay or fire.
6. Lay your fire.
7. Use icing sugar mix to hold the fire together
8. Have your fire checked by a leader
