

# Hat Flower

## Materials

Bottle tops with plastic ring (the ring needs to be able to go over the bottle top)

2 pieces different (looks more effective) of light material approx. approx. 11 cm square

Marker to draw eyes or goggle eyes (Glue)

Safety pin to attach to your hat

## Steps

Fold square in half to create a triangle, repeat twice to make a thinner triangle.

Cut the end in a scallop edge/half circle to form the petals

Repeat same for other piece of material but cut edge smaller to form the inner petals

Put the material behind the bottle top face the push the ring over material to hold it on top/face

Use safety pin to attach to your hat or make a brooch.
